The same GREAT interactive game-based activities you love-- plus so much more!

Vocabulary A-Z is a digital solution for helping K–5 students build vocabulary and increase reading comprehension. By combining digital game-based activities from VocabularySpellingCity, with a powerful, ever-expanding word bank, unique pre-made five-day lesson plans, digital reporting, and the Kids A-Z Student Portal, Vocabulary A-Z delivers a complete solution for classroom instruction and digital student practice.

Key Features

More in-depth vocabulary: every word in the Vocabulary A-Z word bank includes a definition, part of speech, a multiple choice assessment question, and a variety of sentences to promote vocabulary acquisition, including:

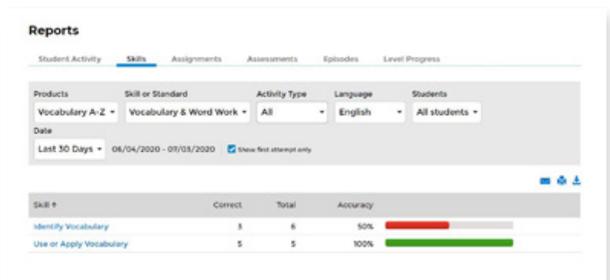

- A sentence starter
- A cloze sentence
- A context sentence
- Optional additional context sentences for custom words

Printable, auto-generated five-day lesson plans make it easy to transform word lists into classroom study and practice such as context cards and analogies related to reading series, Learning A-Z resources, and custom word lists.

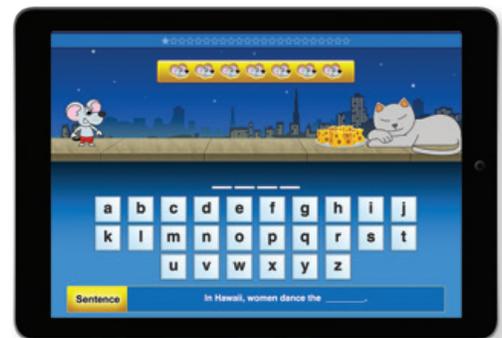

Skills, activity, and assignment reports expand visibility to student performance, providing valuable data to inform and guide vocabulary instruction

Connections to the Kids A-Z student portal provides students with a rewarding, engaging practice experience including customizable avatars, badges and other rewards to motivate students

Online game-based activities for vocabulary, spelling, and phonics you know and love from VocabularySpellingCity, now connected to more resources and more opportunities for students to engage and celebrate their success
